

Product Brochure

- Demo Link: https://iu.mediaspace.kaltura.com/media/t/1_30fyhg2h
- Dustin Martin
- Employee Management System
- GitHub URL: <https://github.com/dsmartin33/System-Design-Project>
- Features:

Add, Remove and Manage Employees, Departments and Projects.
Manage Attendance, Leave Requests, Payroll, Training, Performance Reviews.

System Requirements to run the system:

Please see the README1.TXT

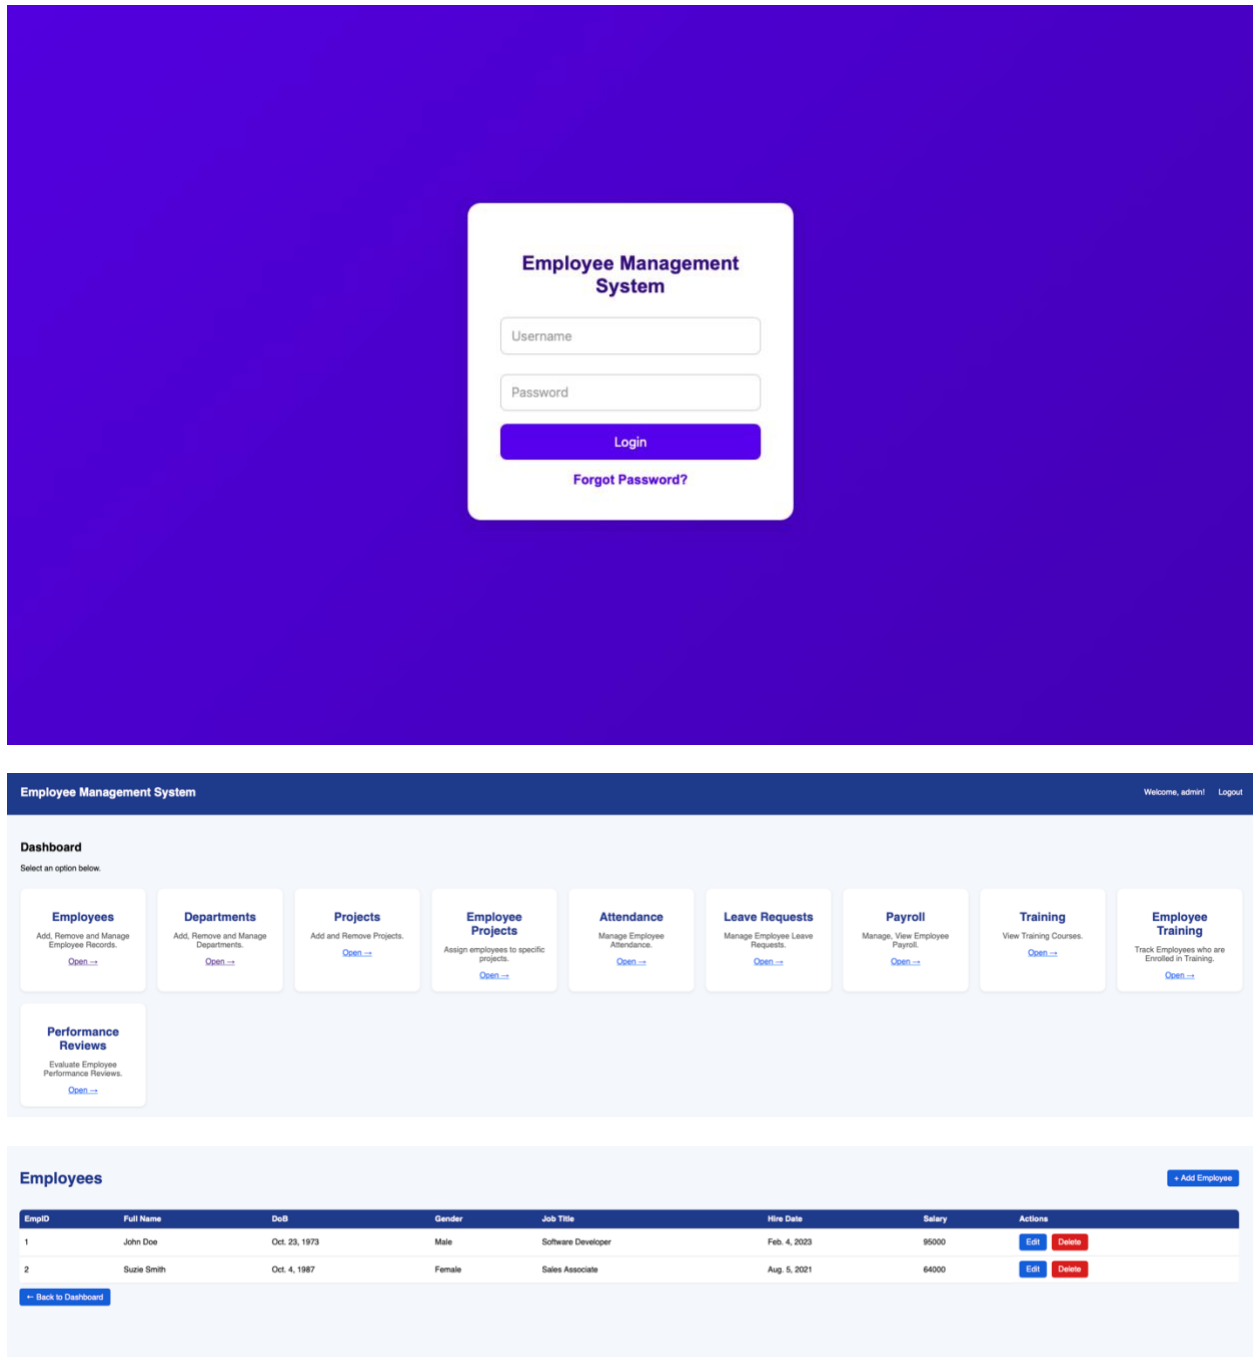

You must have MariaDB installed for the Database.

You must have Python 3.12 installed that can run Django.

You must have an IDE installed that can run Python and Django code. I used PyCharm.

For more information on this, please the README1.txt file under the main folder.
